EDOM Overview

Founded in 1996 Headquarters in Taipei **31**Sales Offices

840+ Employees **US\$3.43B** 2023 Revenue

Main Principals

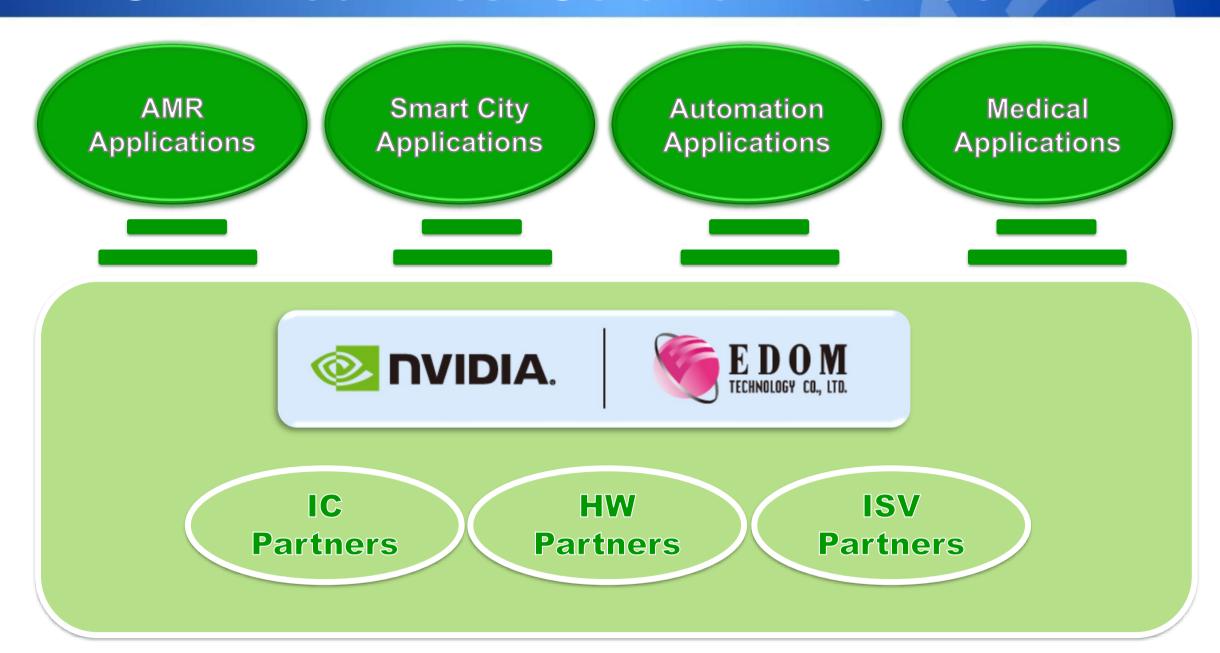

Western Digital.

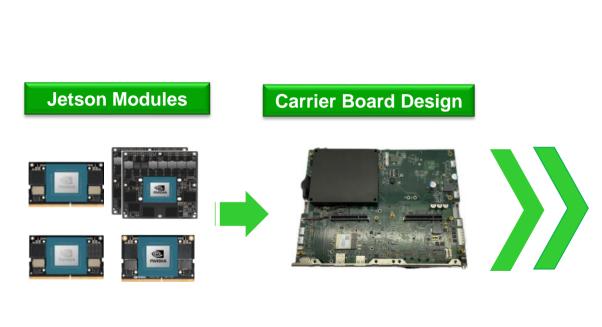

EDOM Asia Sales Channels

EDOM - Your Best Solution Provider

Jetson's Carrier Board - Vertical Market

Jetson Carrier Board Function Design

Category	Features
Power	DC/DC Linear/Switch Regulator, LDO
Networking	RGMII 1G PHY, XFI 10G PHY
MCU	Power sequence, usb to UART
Protection	ESD Protection diode, TVS diode, Fuse
Passive Components	Transistor, MOSFET, Zener/ Schottky Diode, LED
Capacitor	Industrial grade MLCC

What are Components of an Application?

AMR

GMSL CAM / Storage / LTE / WiFi / Sensor / Motor Control / Lidar

Smart City

Storage / LTE / IP CAM / Networking

Automation

Storage / WiFi / HighSpeed CAM / Sensor / Motor Control

Medical

Storage / Endoscope / Heart rate

HW System & ISV Provider

- > HW System
 - Various partners' systems
 Different Applications focusing.

- > ISV
 - ISV partners for Applications from OOB, Automation, Medical and more.

Why Choose EDOM

One Stop Service

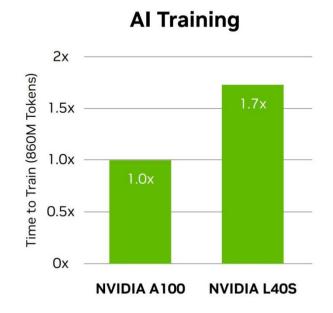

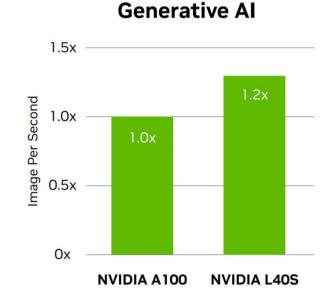

Unparalleled Al Performance - L40S

NVIDIA L40S

The Most Powerful Universal Data Center GPU for Al and Graphics

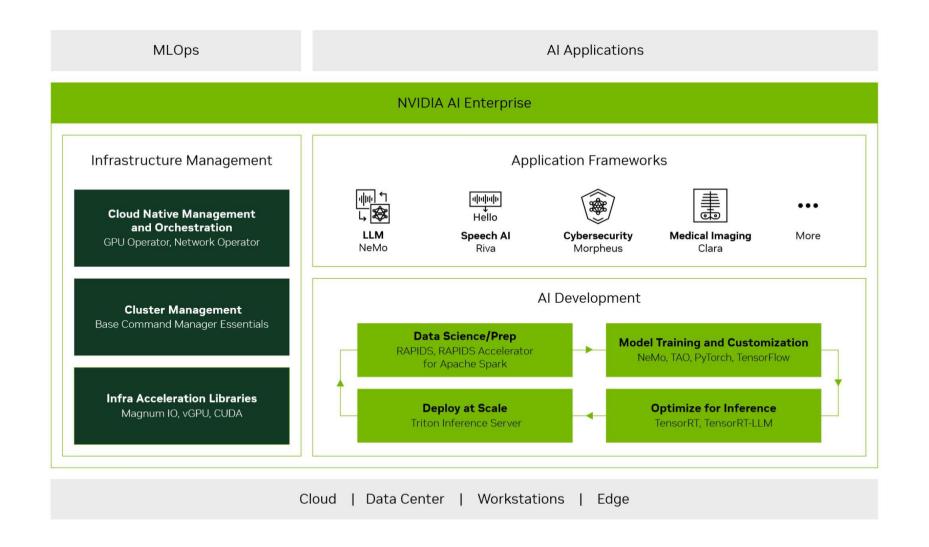

Accelerate Next-Generation Workloads

- > Generative Al
- Large language model (LLM)
 training and inference
- > NVIDIA Omniverse™ Enterprise
- > Rendering and 3D graphics
- Streaming and video content

NVIDIA AI Enterprise

NVIDIA AI Enterprise relieves organizations of the burden of maintaining and securing the complex software platform of AI, freeing them to focus on building AI and harnessing its game-changing insights

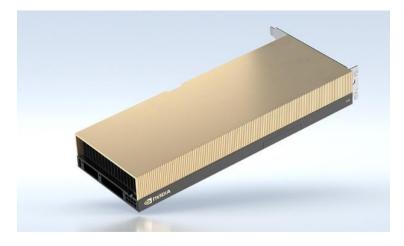

Case Study: Expandable Al Platform for Smart Factory

Aetina AIP-FR68 with NVIDIA A30

Scale Out Model Training & Enterprise Al

Empower your enterprise with our professional AI workstation, AIP-FR68, featuring NVIDIA Data center A30 GPUs for outstanding performance. It provides a scalable supercomputing platform, supporting edge inference, small model training, and enabling innovative AI applications. Enhance productivity in your enterprise AI workflows.

Product Feature

- With a specialized thermal design to support dual passive NVIDIA A30 GPU driving for localized AI training
- Pre-installed NVIDIA AI Workbench Software tool
- Drive breakthrough AOI AI defect detection with Metropolis for Factories
- Al workstation with NCS (NVIDIA-Certified System) certification

Case Study: 5G Edge Server for 5G Radio Networking

Lanner ECA-5540 with NVIDIA L4

Use Case: on 5G RAN – surveillance, security use

NVIDIA L4: Computing entry level use for all the basic Edge

Product Feature

- 5th Gen Intel® Xeon® Scalable Processors
- Intel vRAN Boost Support
- Short Depth Chassis and Front I/O Design
- 16x DDR5 4400MHz RDIMM, Max. 1024GB
- 1x OCP 3.0 NIC Module
- 0 ~ 50°C Operating Temperature (By CPU SKU)
- 2x M.2 NVMe 2280, 2x 2.5" SATA/ U.2
- 1x FHFL PClex 16 slot, 2xLP or 1xFHHL slot (PClex8)
- Secure BMC / TPM 2.0
- A NVIDIA-Certified System for industrial edge
